The JEWISH WELFARE FUND of CLEVELAND 1939

THE AIMS AND PURPOSES OF THE JEWISH WELFARE FUND OF CLEVELAND

The Jewish Welfare Fund, established and administered by the Jewish Welfare Federation, aims to provide for the centralized contribution and allocation of funds for Jewish welfare enterprises, local, national and overseas, which do not come within the scope of the Cleveland Community Fund for support.

It aims to furnish the opportunity for contributors to give in one annual sum for the current needs of all the Institutions and Causes included, thereby relieving the contributors of the annoyance and distraction of continuing annual solicitations and campaigns.

It serves to assure the contributors of an intelligent distribution of their funds in accordance with the merit and need of the Agencies to be supported; and at the same time to assure the Agencies themselves of a continuing annual support in keeping with the Community's interest and responsibility.

It effects a saving not only of the time and energies of those who are asked to participate always in such campaigns and solicitations, but also of a very large part of the excessive cost of collection of the funds.

It is a projection of the Federation and Community Fund idea and principles into the field of National and Overseas Agencies' support.

From the Constitution of the Jewish Welfare Federation of Cleveland

Article III, Section 3. No aid shall be extended to any organization which shall, without the consent in writing of the Board of Trustees, give any ball, bazaar, fair or other entertainment for which tickets are offered for sale, or solicit advertisements or contributions other than permanent endowments or membership fees, which latter shall not exceed $3.00 per annum.

The American Jewish Committee, organized in 1906, has as its purpose the prevention of infringement on the civil and religious rights of the Jews in the United States and throughout the world and to act if necessary on the violation of these rights. In the United States it seeks to safeguard the position of the Jew by a program based on fundamental American principles. It is engaged in a large scale educational campaign that reaches to the root of anti-Jewish prejudice and that attempts to immunize the American mind against bigotry and group hositility.

Seventy-five per cent of the student body of Hebrew University comes from Central and Eastern European countries where admission to the universities in their own countries is barred to them. The University has received a large number of immigration certificates from the Palestine Government permitting European students to come to the Hebrew University to continue their studies. Many students have graduated with M. A. degrees and occupy positions in Palestinian schools and the Jewish school systems of Eastern countries. The University has made place on its staff for many professors exiled from Central European countries.

The Jewish Community Council of Cleveland was created in 1935 through the instrumentality of the Jewish Welfare Federation, and is composed, at present, of 146 organizations representing every interest in Cleveland Jewish life. Its purpose is to provide an opportunity for bringing together all points of view on important Jewish problems in which the entire Jewish community is involved, to foster joint consultation, to develop a broader leadership and to make possible united action where it is indicated, by substantial agreement among the affiliated groups.

The Council's activity in combating discrimination against Jews in employment resulted in the establishment of the Bureau on Employment Problems. Its survey of the activities of youth groups led to the establishment of the Jewish Young Adult Bureau. The Council was also an active participant in the creation of the Jewish Vocational Service. All of these newly established agencies are now beneficiaries of the Jewish Welfare Fund. In addition, the Council has continued its work in preventing the injection of fictitious Jewish issues in political campaigns; the operations of a Jewish Arbitration and Conciliation Court; assistance to the League for Human Rights Against Nazism; serving as the spokesman for the Jewish community in matters affecting Jewish rights, such action being taken after consultation with the national defense organizations; operation of a community calendar and a variety of other important miscellaneous activities:

Programs of relief and reconstruction are being carried on in countries where German refugees have emigrated. Since the founding of the Committee, it has expended nearly $100,000,000 for reconstruction and relief and at the present time is cooperating with and giving support to refugee organizations in thirty-six different countries.

For 1940 the Joint Distribution Committee has combined its fund-raising efforts with those of the United Palestine Appeal and the National Refugee Service, Inc. The combined organization, whose allocations board will represent all three agencies, will be known as the United Jewish Appeal, Inc.

The Committee supervises resettlement work throughout the United States through approximately 600 committees in order that the large concentration of such families in New York City may be decreased.

The National Refugee Service maintains a Migration department offering technical advice on affidavits and in the securing of visas; a Relief and Service department for families who enter this country almost entirely without resources; an Employment department which seeks job opportunities for employable refugees throughout the country without creating any displacement of other workers; and a number of special committees dealing with the resettlement of physicians, placement of musicians, placement of rabbis, planning of small enterprises and educational activities assisting the refugee in his social and cultural adjustment.

Among the organizations receiving subventions from the National Refugee Service are the Council of Service to Foreign Born of the National Council of Jewish Women, The Emergency Committee in Aid of Displaced Foreign Medical Scientists; Emergency Committee in Aid of Displaced Foreign Scholars and the German-Jewish Children's Aid.

The United Palestine Appeal was incorporated in 1936 to manage the campaigns for the American Palestine

campaign which conducts the Palestine Foundation Fund (Keren Hayesod); the Jewish National Fund (Keren Kayemeth); and the Mizrachi Organization of America. The United Palestine Appeal is a fund-raising and not an administrative body. Requirements for Palestine work are determined by the Jewish Agency for Palestine and by the World Zionist Congress.

The program for the Jewish Agency (Keren Hayesod) includes immigration assistance and financing of various agricultural and economic enterprises designed to expand the absorptive capacity of Palestine for Jewish immigration.

The Jewish National Fund (Keren Kayemeth) was organized in 1902 by the Zionist movement for the purpose of receiving gifts and contributions for the acquisition of land in Palestine. The Jewish National Fund now owns 471,000 dunams or 35 per cent of all Jewish owned land in Palestine.

The Mizrachi Palestine Fund which is directed toward maintaining the orthodox Jewish tradition in Palestine, has established an educational system comprising elementary schools, high schools, teachers seminaries, trade schools, and technical schools in the country.

For 1940, the United Palestine Appeal has combined its fund-raising efforts with those of the Joint Distribution Committee and the National Refugee Service, Inc. The combined organizations, whose allocations board represents all three agencies, is known as the United Jewish Appeal, Inc.

THE JEWISH WELFARE FUND
SUBSCRIBERS' LIST

In the following pages are recorded the names of over 22,000 contributors to the Jewish Welfare Fund of Cleveland for the year 1939. This record compares with some 13,500 names listed in the 1938 Report. This is a most gratifying showing and reflects great credit upon this community, upon the givers to the Fund and upon the hundreds of men and women who worked in the Campaign and insured its outstanding success. By the remarkable achievement of last year, Cleveland forged to the very front of Jewish communities in the United States. Countless men, women and children abroad and at home have been helped to life and hope by Cleveland's generosity.

The magnitude of the Appeal which was only in keeping with the magnitude of the needs of this great humanitarian enterprise, quite necessarily called for unprecedented giving—Special, Emergency, Memorial, Additional, etc. It was found difficult to encompass in the limited space of this booklet all the special designations which accompanied the gifts.

The legends (*) and (#) indicate respectively partly unpaid and the fully unpaid pledges in accordance with the notices sent out to the contributors on February 8th and February 26th, advising such contributors that pledges not paid as of the date of filing copy with the printer, would be so designated. Where contributors have made known their inability to pay or desired cancellation or postponement of payment of pledges, such requests have been promptly considered and where justified, complied with. The Welfare Fund has tried to be absolutely fair to all of its contributors as well as to the overseas relief agencies and other beneficiaries who are depending upon a full remittance of the amounts allocated.

Several hundreds of the 22,000 pledges including those of Corporations, Chain Stores, and Individuals, were given anonymously for reasons sufficient to the Donors, and respect for their wishes requires that we report the total only of the Anonymous Gifts, ($37,-716). The Office files carry the actual names of the Contributors where such identification accompanied the Pledges.

The vast increase in this contributors' list, the greater volume of work entailed in entering, billing posting and collection of these accounts, the variations from the usual practice of single unqualified and unrestricted pledges, represented by Special, Emergency, Additional and other forms of gift indicated in many thousands of cases, the changes requested after the Campaign and in the course of the collection period, the efforts to check properly and charge off duplicates of which there were likewise many—all of these factors have put more than the usual burden upon the administration during the past nine months. Errors will no doubt be found in this booklet. We ask the indulgence of our contributors.
